## Performance Measure Detail

## A: Result - Professionalism among public safety officers.

**Target #1:** 5% increase in the number of officers trained annually.**Measure #1:** % increase in the number of officers trained.

## Number of Law Enforcement Officers Trained (fiscal year)

Fiscal Year	YTD Total	Percent Inc/Dec
FY 2002	828	0
FY 2003	1561	+89%
FY 2004	1056	-32%
FY 2005	1277	+21%
FY 2006	2866	+124%

**Analysis of results and challenges:** In FY2006, the council sponsored participants from 50 police departments; 2,866 individual officers received 6,990 hours of advanced training. Though the number of police and correctional officers trained is influenced by several factors including a municipality's ability to send police officers to training, officer turnover, and funding, this total is still a good indicator of progress. This number includes those sponsored to attend academies as well as in-service training.

The methodology for counting in-service trainings changed in FY2006, resulting in a large increase. In prior years, funds were paid directly to police departments without subsequent collection of number of students trained; departments now report numbers trained. These data should smooth out during the FY2007 reporting period.

## A1: Strategy - Provide academy and in-service training for public safety (police and correctional) officers.

**Target #1:** 5% increase in the number of officers per year sponsored to attend in-service training.**Measure #1:** % increase in the number of officers sponsored to attend in-service training.

## Number of Officers Sponsored for In-Service Training (by fiscal year)

Fiscal Year	YTD Total	Percent Inc/Dec
FY 2002	778	
FY 2003	1517	+95%
FY 2004	1001	-34%
FY 2005	1210	+21%
FY 2006	2819	+133%

**Analysis of results and challenges:** The council funds as much as possible, in-service training classes that allow multiple agencies to participate, yielding a higher number of trained officers.

The methodology for counting in-service trainings changed in FY2006, resulting in a large increase. In prior years, funds were paid directly to police departments without subsequent collection of number of students trained; departments now report numbers trained. These data should smooth out during the FY2007 reporting period.

**Target #2:** 5% increase in the number of officers per year sponsored to attend academy training.

**Measure #2:** % increase in the number of officers sponsored to attend academy training.

#### Number of Officers Sponsored for Academy Training (by fiscal year)

Year	YTD Total	Percent Inc/Dec
2002	50	
2003	44	-12%
2004	55	+25%
2005	67	+22%
2006	47	-30%

**Analysis of results and challenges:** It is always the council's intent to fund as many academy training classes for as many eligible officers as possible. Attendance numbers are limited by the availability of eligible officers who sign up, maximum class capacity, and whether there is an academy scheduled within the time frame needed.

### A2: Strategy - Ensure compliance with regulations.

**Target #1:** Close 100% of all internal investigations.

**Measure #1:** % of internal investigations closed.

#### Percent of Internal Investigations Closed (fiscal year)

Fiscal Year	Investigations opened	Investigations closed	Percent closed
FY 2004	14	10	71%
FY 2005	11	4	36%
FY 2006	31	25	81%

**Analysis of results and challenges:** To fully resolve any compliance issues, all internal investigations are completed as soon as possible. In FY2006, 5 of the 6 pending cases are due to ongoing litigation, which prevents the council from taking final action until the court cases are concluded.

### Key Component Challenges

The majority of small police departments in Alaska have very limited training budgets, with most of their funds going toward required entry-level training. The Alaska Police Standards Council (APSC) training fund is available to these agencies and APSC works with the staff to identify training that will be of most benefit to the community. Examples of such training are ethics and integrity, community policing, and domestic violence investigation. The APSC training fund also sponsors qualified recruits at the Department of Public Safety Training Academy in Sitka and the University of Alaska-Fairbanks Training Academy.

APSC continues to focus on identifying, funding, and integrating into its training agenda programs that are not only current, but progressive, as well. Individual community needs and agency limitations must also be considered when reviewing appropriate training plans.

### Significant Changes in Results to be Delivered in FY2008

The council staff will continue to work on improving communications with and between law enforcement agencies statewide in an effort to prevent problem officers from transferring between agencies.

APSC is currently developing new regulations relating to police, correctional, and probation personnel records and reporting procedures. These new policies are intended to assist these respective agencies in the recruiting, hiring, and employment of even more highly qualified officers.

## Major Component Accomplishments in 2006

- Provided basic recruit training support for 47 recruits at the Department of Public Safety Academy in Sitka and University of Alaska-Fairbanks Training Academy.
- Assisted with equipment, training supplies and instructor time for all academies, as well as for police departments across the state.
- Provided support and basic training to state correctional officers, municipal jail officers, as well as probation and parole officers statewide.
- Provided in-service training for 50 police departments; 2,866 individual officers received 6,990 hours of advanced training.
